

IAC-D-6/11.4
8 February 1956

INTELLIGENCE ADVISORY COMMITTEE

Release to SHAPE of Reports of

Indications of Soviet Military Aggression

1. On 7 February, the IAC again denied SHAPE's request for a weekly report of indications of Soviet military aggression (IAC-M-229, 7 February 1956, item 7).
2. Since this is the third time the IAC has not acceded to this SHAPE request, and no official explanation has previously been given, I recommend that the reply to SHAPE's most recent request take the form of the attached draft (Tab A).
3. Please telephone me your concurrence or comments within the next few days.

Secretary

*All agencies concurred.
